SPORT TARGET PISTOL by Prommersberger

Current models 2020/2021

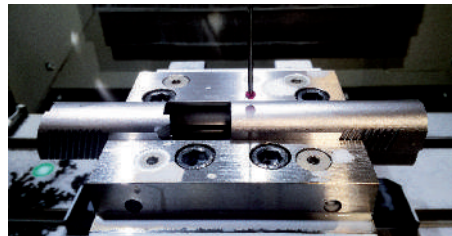

STP® – Premium weapons "Made in Germany"

Pistols specially adapted for sports disciplines!

Our pistols are manufactured to the highest standards with modern technology and the help of our own CNC machines manufactured in Germany.
We process high-quality tool steels and tempered steels.

Surface finishing and coatings:

In addition to burnishing, we also offer classic hard chrome for all our STP® guns.
For optimum wear protection, we use high-quality coatings using the PVD (physical vapour deposition) process. PVD additionally improves the coefficient of friction.
