MODEL KESSLER

Action:

based on the world famous 98-Mauser action, especially fitted with a new accurate fine trigger and magazine. Extra light and elegant rifle for 3 rounds

Barrel length	550 mm (21,5")
Length overall	1100 mm
Average weight	2,7-3 kg = 6,5-6,8 lbs

Safety:

several possibilities according to the choice of the customer

- a) Modified wing type safety
- b) Silent 3 position safety on flat elegant cocking housing
- c) Safety cocking piece with or without bolt lock
 - i. e. safety feature system Voere

Trigger:

a new designed trigger – adjusted on ca. 750 g (1,5 lbs) trigger weight – makes it possible to slim down the rifle to such an elegant gun. Enough room for gloves

Barrel:

the standard barrel length of 550 mm (21,5") made out of high performance steel can be shortened down to 510 mm (20").

Elegant stock:

the selected walnut hand checkered stock handmade with high craftsmanship. Bavarian special cheekpiece, drop-shaped fore-end tip and pistol grip cap of rose wood together with the deep blueing gives the rifle the outstanding unexchangeable appearance.

Accessories:

individual wishes are welcome. However we recommend our quickly detachable VOERE precision mount which allows the use of several different scopes or sights.

SEMI-AUTOMATIC PRECISION RIFLE MODEL 2185 MATCH

Standard calibers:

◊ .30-06
◊ .308 Win.
◊ 7 x 64

◊ .300 Win. Mg.

◊ Average weight 5 kg
◊ Barrel length 510 mm
◊ Overall length 1150 mm

◊ Gas operated self loading precision rifle. Rotary bolt with three locking lugs of extreme strength.

◊ Free floating barrel of special steel for durability and high accuracy.

◊ Push-button operated hold open catch allows to keep the bolt open. This is a substantial factor of safety at the range.

◊ Two stage light trigger.

◊ Standard magazine capacity: 3 + 5 rds.

◊ The rifle will fire only when the bolt is fully locked. Manual safety locks the hammer. Cocking indicator inside the trigger guard.

◊ The rifle can be made to shoot as a manual operated repeater (e.g. at the range).

◊ Metallic sights are standard. Our new quick mount system elements are assembled on the top of the receiver. This system enables quick mounting and dismounting of a telescope without any change of point of impact.

◊ The rifle is designed for extreme functional dependability with accuracy far higher than expected from a self loading rifle.

◊ Match type laminated wood stock in which the action is glass bedded, equipped with a bottom rail to hold a bipod and sling swivel etc. The cheek piece and rubber butt plate are adjustable.
